Record of meetings held with Graig Quarry

Date:	Items:	Action:
3 rd Feb. 2023	Adam Mackridge had an informal chat with Nick Hughes regarding sheeting of wagons and spilled stone in the roads.	Nick Hughes was to discuss sheeting and speak to the loaders about the issues.
9 th Feb. 2023	Anne Peters reported 2 lorries coming down Wrexham Hill on 9 th Feb 2023. (This road has a weight limit of 7.5T.) From the description of the lorries Nick Hughes was not able to work out who the drivers were. He explained the system for loading and when the lorries get sheeted and that there is no simple point where drivers can be compelled to sheet before leaving. Neither he, nor his office manager, could think of a solution at that time.	Nick Hughes phoned the contractors of all the lorries that came in during the time period and asked them to tell their drivers not to use Wrexham Hill and to make sure they sheet their loads.
21 st Feb. 2023	Adam Mackridge reported an unsheeted lorry to Nick Hughes via email.	Nick Hughes phoned the subcontractor's office and put the driver on a warning. The subcontractor will also remind all their drivers to sheet their loads.
