

LLANARMON COMMUNITY COUNCIL REPORT JULY 2024.

REFUSE COLLECTIONS.

The overwhelming issue throughout The Ward has been the rollout of the new waste system. Problems with waste not being collected for 3 weeks has caused much concern. DCC has engaged an extra 10 trucks to the fleet (a 50% increase) and going forward collections should take place on the due day. Any missed collections will be “mopped up” by dedicated Crews each Saturday. Residents with larger families can request an additional Trolibocs for extra capacity by calling 01824 706000. Any missed collections should be reported to me and will be put on an internal dedicated system.

PLANNING APPLICATIONS.

Application number 15/2013/1080, Land adjacent to Erw Goed Llanarmon went before the Planning Committee on 19th June. It was passed, the only consideration was the materials used and landscaping. The development is still limited to 10 houses because of the lack of capacity at the Waste Treatment Plant. Having spoken to the Architect involved, the Developer will build 4/5 houses, then the remaining as a second phase. I have requested details of the commuted sum available to the community but have not had a response. I should have details for the next meeting.

HEN ARDD CAR PARK. A meeting with Countryside services took place on Monday 1st July. Thomas Hiles from Countryside services has agreed to felling of the smaller tree and trimming the large tree. It is now up to the CC to decide on the design.

PARC FARM AUGUST CONCERT. The Clerk has a copy of the premises licence which shows they are licenced for music indoors. If they want to play music outside, they have to apply for a Temporary Events Notice. As far as I am aware, no application has been made. I have had a variety of opinions over last years Concert, and welcome further opinions from the CC.

If there are any issues that are of concern, please get in touch. 07795 659777.
